Education

Toulouse INP – ENSEEIHT (N7)

Engineering degree, Systems & Networks Architecture (ASR) track

Toulouse, France

2025 – 2028 (expected)

- Core curriculum: computer architecture, networks & telecommunications, language translation / compilation, concurrent & distributed systems, formal methods (Why3, Coq).

CPGE MPI, Lycée Paul Valéry

Preparatory classes — Mathematics, Physics, Computer Science

Paris, France

2024 – 2025

CPGE MP2I-MPI, Lycée Hoche

Preparatory classes — Mathematics, Physics, Computer Science

Versailles, France

2022 – 2024

Experience

Basic Fit

Front Desk Agent

Vélizy, France

06/2024 – 09/2024 and 06/2025 – 09/2025

- Managed customer service and client relations.
- Sold gym memberships and handled subscription inquiries.
- Ensured cleanliness and proper functioning of the club facilities.
- Provided after-sales service and support.
- Resolved conflicts and maintained a positive atmosphere within the club.

Auchan Drive

Multi-skilled Team Member

Vélizy, France

02/2022 – 07/2022

- Prepared and delivered customer orders efficiently.
- Managed stock and inventory levels.
- Maintained cleanliness and organization of the workspace.

Projects

Neural Network from Scratch

2025

- Built a neural network from scratch in CUDA, with no ML framework, including hand-written GPU kernels for every matrix operation.
- Implemented backpropagation and the Adam optimizer; reached 96% accuracy on MNIST and 89% on EMNIST.

CHIP-8 Emulator

2026

- Wrote a CHIP-8 interpreter in C, implementing the full instruction set (opcode decoding, timers, stack, registers).
- Used SDL2 for display rendering and keyboard input; validated against the IBM logo, Corax+, and BC_test ROMs.

Skills & Interests

Technical: C, Rust, Ada, CUDA (systems & low-level); Python, MATLAB (applied/scientific computing); Why3, Coq (formal methods)

Languages: French (native), English (operational)

Interests: Strength training & powerlifting, reading
